### **LIBERTAS AND THE PRACTICE OF POLITICS IN THE LATE ROMAN REPUBLIC**

---

**Cambridge University Press** This is a comprehensive analysis of the idea of libertas and its conflicting uses in the political struggles of the late Roman Republic. By reconstructing Roman political thinking about liberty against the background of Classical and Hellenistic thought, it excavates two distinct intellectual traditions on the means allowing for the preservation and the loss of libertas. Considering the interplay of these traditions in the political debates of the first century BC, Dr Arena offers a significant reinterpretation of the political struggles of the time as well as a radical reappraisal of the role played by the idea of liberty in the practice of politics. She argues that, as a result of its uses in rhetorical debates, libertas underwent a form of conceptual change at the end of the Republic and came to legitimise a new course of politics, which led progressively to the transformation of the whole political system.

---

## **THE CAMBRIDGE HISTORY OF GREEK AND ROMAN WARFARE**

---

**Cambridge University Press First volume of a systematic and up-to-date account of warfare from Archaic Greece to Republican Rome.**

---

## **CONSENSUS, CONCORDIA AND THE FORMATION OF ROMAN IMPERIAL IDEOLOGY**

---

**Routledge** This book concerns the relationship between ideas and power in the genesis of the Roman empire. The self-justification of the first emperor through the consensus of the citizen body constrained him to adhere to 'legitimate' and 'traditional' forms of self-presentation. Lobur explores how these notions become explicated and reconfigured by the upper and mostly non-political classes of Italy and Rome. The chronic turmoil experienced in the late republic shaped the values and program of the imperial system; it molded the comprehensive and authoritative accounts of Roman tradition and history in a way that allowed the system to appear both traditional and historical. This book also examines how shifts in rhetorical and historiographical practices facilitated the spreading and assimilation of shared ideas that allowed the empire to cohere.

## **THE 2003-2007 EXCAVATIONS IN THE LATE ROMAN FORT AT YOTVATA**

---

**Penn State Press** The Late Roman fort at Yotvata is located in the southern Arava some 40 km north of Eilat/Aqaba (ancient Aila). The modern Hebrew name of the site is based on its suggested identification with biblical Jotbathah (Deut 10:7), where the Israelites encamped during their desert wanderings. The modern Arabic name of the site, Ein Ghadian, may preserve the ancient Roman name Ad Dianam. Because the Late Roman fort at Yotvata is visible as a low mound next to the Arava road, it has long been known to scholars. Each June between 2003 and 2007, Gwyn Davies (Florida International University) and Jodi Magness (University of North Carolina at Chapel Hill) co-directed excavations here. This volume provides the results of those excavations, adding substantially to our knowledge of Roman defenses in the third and fourth centuries of the Common Era, along the trade route that traversed the southern Arava and on the eastern frontier of the Empire.

---

## **PUBLIC OPINION AND POLITICS IN THE LATE ROMAN REPUBLIC**

---

**Cambridge University Press** This book investigates the working mechanisms of public opinion in Late Republican Rome as a part of informal politics. It explores the political interaction (and sometimes opposition) between the elite and the people through various means, such as rumours, gossip, political literature, popular verses and graffiti. It also proposes the existence of a public sphere in Late Republican Rome and analyses public opinion in that time as a system of control. By applying the spatial turn to politics, it becomes possible to study sociability and informal meetings where public opinion circulated. What emerges is a wider concept of the political participation of the people,

not just restricted to voting or participating in the assemblies.

**THE ROMAN EMPIRE: A VERY SHORT INTRODUCTION**

---

---

Oxford University Press The Roman Empire was a remarkable achievement. With a population of sixty million people, it encircled the Mediterranean and stretched from northern England to North Africa and Syria. This Very Short Introduction covers the history of the empire at its height, looking at its people, religions and social structures. It explains how it deployed violence, 'romanisation', and tactical power to develop an astonishingly uniform culture from Rome to its furthest outreaches.

**A COMPANION TO THE POLITICAL CULTURE OF THE ROMAN REPUBLIC**

---

---

John Wiley & Sons An insightful and original exploration of Roman Republic politics In A Companion to the Political

---

---

**Culture of the Roman Republic**, editors Valentina Arena and Jonathan Prag deliver an incisive and original collection of forty contributions from leading academics representing various intellectual and academic traditions. The collected works represent some of the best scholarship in recent decades and adopt a variety of approaches, each of which confronts major problems in the field and contributes to ongoing research. The book represents a new, updated, and comprehensive view of the political world of Republican Rome and some of the included essays are available in English for the first time. Divided into six parts, the discussions consider the institutionalized loci, political actors, and values, rituals, and discourse that characterized Republican Rome. The Companion also offers several case studies and sections on the history of the interpretation of political life in the Roman Republic. Key features include: A thorough introduction to the Roman political world as seen through the wider lenses of Roman political culture Comprehensive explorations of the fundamental components of Roman political culture, including ideas and values, civic and religious rituals, myths, and communicative strategies Practical discussions of Roman Republic institutions, both with reference to their formal rules and prescriptions, and as patterns of social organization In depth examinations of the 'afterlife' of the Roman Republic, both in ancient authors and in early modern and modern times Perfect for students of all levels of the ancient world, **A Companion to the Political Culture of the Roman Republic** will also earn a place in the libraries of scholars and students of politics, political history, and the history of ideas.

**WORLD MONARCHIES AND DYNASTIES**

Routledge Throughout history, royal dynasties have dominated countries and empires around the world. Kings, queens, emperors, chiefs, pharaohs, czars - whatever title they ruled by, monarchs have shaped institutions, rituals, and cultures in every time period and every corner of the globe. The concept of monarchy originated in prehistoric times and evolved over centuries right up to the present. Efforts to overthrow monarchies or evade their rule - such as the American, French, Chinese, and Russian revolutions - are considered turning points in world history. Even today, many countries retain their monarchies, although in vastly reduced form with little political power. One cannot understand human history and government without understanding monarchs and monarchies. This fully-illustrated

encyclopedia provides the first complete survey of all the major rulers and ruling families of the world, past and present. No other reference work approaches the topic with the same sense of magnitude or connection to historical context. Arranged in A-Z format for ease of access, **World Monarchies and Dynasties** includes information on major monarchs and dynasties from ancient time to the present. This set: includes overviews of reigns and successions, genealogical charts, and dynastic timelines; addresses concepts, problems, and theories of monarchy; provides background and information for further research; highlights important places, structures, symbols, events, and legends related to particular monarchs and dynasties; includes a master bibliography and multiple indexes.

### **ROMAN ARISTOCRATIC PARTIES AND FAMILIES**

---

Friedrich Munzer's **Roman Aristocratic Parties and Families** is recognized by all students of Roman history as a path-breaking work in the analysis of the Roman oligarchy. Here for the first time was a description of the methods by which the few most politically important clans in Rome, originally patrician, had expanded to take in so many promising plebeians - not only from Rome but from all over Italy - and make them part of the governing class. Originally published in German in 1920, **Roman Aristocratic Parties and Families** is now available for the first time in English translation. This edition is also the first to contain an index and a bibliography, making it of value to scholars who are already familiar with the original work.
