#### THE ROAD

---

[Pan Macmillan](#) **The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves. They must keep walking. Winner of the Pulitzer Prize for Fiction, The Road is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, The Road is a true modern classic, a masterful, moving and increasingly prescient novel. This edition is part of the Picador Collection, a series of the best in contemporary literature, inaugurated in Picador's 50th Anniversary year.**

## SCOUTING FOR BOYS

---

First published in 1908, "Scouting for Boys" is the seminal work on scouting by British Army officer and founder of the worldwide scouting movement, Robert Baden-Powell. Originally written as a manual for self-instruction, "Scouting for Boys" details many important scouting skills including scoutcraft, tracking, woodcraft, camping, and first-aid. Baden-Powell's work is a rework of his earlier "Aids to Scouting", published in 1899, and borrows many ideas from Ernest Thompson Seton's "The Birch Bark Roll of the Woodcraft Indians", published in 1906. "Scouting for Boys" includes numerous tales that can be told around the campfire, as well as many of Baden-Powell's personal anecdotes, and opinions on proper moral character of boy scouts. While some of the information in this work may seem outdated and some of the moralizing may seem antiquated to modern readers, "Scouting for Boys" remains an important historical work in the scouting movement. Having sold millions of copies since its first publication, the impact Baden-Powell's "Scouting for Boys" as well as his personal advocacy for the scouting movement cannot be overstated. This edition is printed on premium acid-free paper.

## COLUMBIA CREW SURVIVAL INVESTIGATION REPORT

---

PDQ Press NASA commissioned the Columbia Accident Investigation Board (CAIB) to conduct a thorough review of both the technical and the organizational causes of the loss of the Space Shuttle Columbia and her crew on February 1, 2003. The accident investigation that followed determined that a large piece of insulating foam from Columbia's external tank (ET) had come off during ascent and struck the leading edge of the left wing, causing critical damage. The damage was undetected during the mission. The Columbia accident was not survivable. After the Columbia Accident Investigation Board (CAIB) investigation regarding the cause of the accident was completed, further consideration produced the question of whether there were lessons to be learned about how to improve crew survival in the future. This investigation was performed with the belief that a comprehensive, respectful investigation could provide knowledge that can protect future crews in the worldwide community of human space flight. Additionally, in the course of the investigation, several areas of research were identified that could improve our understanding of both nominal space flight and future spacecraft accidents. This report is the first comprehensive, publicly available accident investigation report addressing crew survival for a human spacecraft mishap, and it provides key information for future crew survival investigations. The results of this investigation are intended to add meaning to the sacrifice of the crew's lives by making space flight safer for all future generations.

The novel interweaves Rodney's coming-of-age story with that of his friend Boy Jim's boxing endeavors, and a large portion of it deals with the famous bare-knuckle boxers of the late eighteenth and early nineteenth centuries, such as Jem Belcher, John Jackson, Daniel Mendoza, Dutch Sam, and others. DBS helps in neurological disorders by changing the activity of brain cells depending on where the electrodes are placed. In 2002, long-term results of pallidal stimulation were reported for Parkinson's disease. ---

[International Labour Organization](#) Port work is still considered an occupation with very high accident rates.
