RECREATION AND PARKS

THE PROFESSION

Human Kinetics Gaining an understanding of the recreation and parks profession is crucial to success in the field and to effective leadership within the field. **Recreation and Parks: The Profession** is a one-of-a-kind resource that delineates the components that make this complex field a profession. Written by well-known recreation authority **Betty van der Smissen**, this book: defines the marks of the recreation and parks profession and identifies the steps involved in becoming a professional in the field; profiles 62 professional organizations within the profession; outlines a comparative history of 15 categories of the recreation and parks field in the United States and Canada; and presents a classic-to-contemporary bibliography of resources that showcases an inclusive body of knowledge on the profession. Part I describes recreation and parks as a profession and provides students with steps to lay a solid foundation to become a professional. Part II grounds readers with a comparative historical overview of the recreation and parks field from the 1500s to the present day. The author divides the field into 15 categories and offers suggestions on how to use the time line. Part III profiles 62 professional organizations. Each profile includes the organization's mission, goals, structure, history, publications, services, and professional credentialing information. In addition, it lists the organization's Web sites, contact information, and other vital information that students use in completing course work, in applying for internships, and in researching various aspects of the profession. Part IV contains a bibliography of selected resources on recreation and parks, from classic to the present. **Recreation and Parks: The Profession** is a unique resource for students, professors, and professionals in recreation and parks. The text brings together the important aspects of the field as a profession.

REAL ESTATE PERSPECTIVES

AN INTRODUCTION TO REAL ESTATE

Richard d Irwin This text provides a clear presentation of the numerous investment decisions involved in real estate such as whether and how to lease, buy, sell, or mortgage a property; how to analyze and predict the forces in the market that determine real estate values; whether and when to renovate, rehabilitate, or demolish; and when and how to divest a property. The authors use Value as a unifying theme, supporting their view that students best understand and appreciate the importance of the complex economic, social, and legal processes that affect real estate markets after they have developed an understanding of how real estate valuation and investment decisions are made. The text provides a decision-making framework through a greater use of technology and quantitative decision-making tools. It is organized into five perspectives: Investment, Market, Value, Mortgage Finance and Legal.
