PROVIDING GLOBAL IT SOLUTIONS FROM CHINA

THE HUAWEI STORY

Paths International Ltd **Providing Global IT Solutions from China: The Huawei Story** explores Huawei's ten year process of successful globalisation from four key perspectives: Huawei as the star company, Huawei as the globalised company, Huawei as the competitor of other companies, and Huawei as the controversial company. Revealing and informative, it provides numerous examples and suggestions for other companies seeking to expand into overseas markets. The layout and format is very clearly structured, making it easy for the reader to jump between chapters or select the most important part for intensive study. Part of a brand-new seven book series published by Paths International in partnership with Guangdong Economy Publishing House (China) titled Cases in Modern Chinese Business.

URBAN WASTE AND SANITATION SERVICES FOR SUSTAINABLE DEVELOPMENT

HARNESSING SOCIAL AND TECHNICAL DIVERSITY IN EAST AFRICA

Routledge Urban sanitation and solid waste sectors are under significant pressure in East Africa due to the lack of competent institutional capacity and the growth of the region's urban population. This book presents and applies an original analytical approach to assess the existing socio-technical mixtures of waste and sanitation systems and to ensure wider access, increase flexibility and ecological sustainability. It shows how the problem is not the current diversity in waste and sanitation infrastructures and services and variety of types and scales of technology, of formal and informal sector involvement, and of management and ownership modes. The book focuses instead on the lack of an integrative approach to managing and upgrading of the various waste and sanitation configurations and services so as to ensure wider access, flexibility and sustainability for the low income populations who happen to be the main stakeholders. This approach, coined "Modernized Mixtures", serves as a nexus throughout the book. The empirical core addresses the waste and sanitation challenges and debates at each scale - from the micro-level (households) to the macro-level (international support) - and is based on the results of a five-year-long interdisciplinary, empirical research program. It assesses the socio-technical diversity in waste and sanitation and provides viable solutions to sanitation and waste management in East Africa. This book provides students, researchers and professional in environmental technology, sociology, management and urban planning with an integrated analytical perspective on centralized and decentralized waste and sanitation configurations and tools for improvement in the technology, policy and management of sanitation and solid waste sectors.

THE PHYSICS OF ELECTRONIC AND ATOMIC COLLISIONS: XXI INTERNATIONAL CONFERENCE

SENDAI, JAPAN, JULY 22-27, 1999

American Inst. of Physics The International Conference on the Physics of Electronic and Atomic Collisions (ICPEAC) is the largest of the international conferences dealing with two-body dynamic interactions between photons, electrons, positrons, atoms, molecules, ions and clusters. These subjects are of fundamental importance in quantum physics and chemistry. They are also basic elementary processes in the fields of astrophysics, atmospheric science, gaseous electronics, plasma processing, nuclear fusion science and radiation physics and chemistry. This book includes all invited talks which cover fundamental physics (the nano-kelvin physics of Bose-Einstein condensation in atomic gases) to practical applications (ion beam treatment of cancer).

OBJECT-ORIENTED TECHNOLOGY. ECOOP 2003 WORKSHOP READER

ECOOP 2003 WORKSHOPS, DARMSTADT, GERMANY, JULY 21-25, 2003, FINAL REPORTS

Springer This volume represents the seventh edition of the ECOOP Workshop Reader, a compendium of workshop reports from the 17th European Conference on Object-Oriented Programming (ECOOP 2003), held in Darmstadt, Germany, during July 21-25, 2003. The workshops were held during the first two days of the conference. They cover a wide range of interesting and innovative topics in object-oriented technology and offered the participants an opportunity for interaction and lively discussion. Twenty-one workshops were selected from a total of 24 submissions based on their scientific merit, the actuality of the topic, and their potential for a lively interaction. Unfortunately, one workshop had to be cancelled. Special thanks are due to the workshop organizers who recorded and summarized the discussions. We would also like to thank all the participants for their presentations and lively contributions to the discussion: they made this volume possible. Last, but not least, we wish to express our appreciation to the members of the organizing committee who put in countless hours setting up and coordinating the workshops. We hope that this snapshot of current object-oriented technology will prove stimulating to you. October 2003 Frank Buschmann Alejandro Buchmann Mariano Cilia Organization ECOOP 2003 was organized by the Software Technology Group, Department of Computer Science, Darmstadt University of Technology under the auspices of AITO (Association Internationale pour les Technologies Objets) in cooperation with ACM SIGPLAN. The proceedings of the main conference were published as LNCS 2743.

PUBLIC HEALTH NURSING - REVISED REPRINT

POPULATION-CENTERED HEALTH CARE IN THE COMMUNITY

Elsevier Health Sciences This Revised Reprint of our 8th edition, the "gold standard" in community health nursing, **Public Health Nursing: Population-Centered Health Care in the Community**, has been updated with a new Quality and Safety Education in Nursing (QSEN) appendix that features examples of incorporating knowledge, skills, and attitudes to improve quality and safety in community/public health nursing practice. As with the previous version, this text provides comprehensive and up-to-date content to keep you at the forefront of the ever-changing community health climate and prepare you for an effective nursing career. In addition to concepts and interventions for individuals, families, and communities, this text also incorporates real-life applications of the public nurse's role, Healthy People 2020 initiatives, new chapters on forensics and genomics, plus timely coverage of disaster management and important client populations such as pregnant teens, the homeless, immigrants, and more. Evidence-Based Practice boxes illustrate how the latest research findings apply to public/community health nursing. Separate chapters on disease outbreak investigation and disaster management describe the nurse's role in surveilling public health and managing these types of threats to public health. Separate unit on the public/community health nurse's role describes the different functions of the public/community health nurse within the community. Levels of Prevention boxes show how community/public health nurses deliver health care interventions at the primary, secondary, and tertiary levels of prevention. What Do You Think?, Did You Know?, and How To? boxes use practical examples and critical thinking exercises to illustrate chapter content. The Cutting Edge highlights significant issues and new approaches to community-oriented nursing practice. Practice Application provides case studies with critical thinking questions. Separate chapters on community health initiatives thoroughly describe different approaches to promoting health among populations. Appendixes offer additional resources and key information, such as screening and assessment tools and clinical practice guidelines. **NEW!** Quality and Safety Education in Nursing (QSEN) appendix features examples of incorporating knowledge, skills, and attitudes to improve quality and safety in community/public health nursing practice. **NEW!** Linking Content to Practice boxes provide real-life applications for chapter content. **NEW!** Healthy People 2020 feature boxes highlight the goals and objectives for promoting health and wellness over the next decade. **NEW!** Forensic Nursing in the Community chapter focuses on the unique role of forensic nurses in public health and safety, interpersonal violence, mass violence, and disasters. **NEW!** Genomics in Public Health Nursing chapter includes a history of genetics and genomics and their impact on public/community health nursing care.

PEDIATRIC PSYCHOSOCIAL ONCOLOGY: TEXTBOOK FOR MULTIDISCIPLINARY CARE

Springer This textbook walks clinicians through the psychosocial issues and challenges faced by children and adolescents with cancer and their families. Through a developmental lens, the text provides guidance and resources that will enable clinicians to understand the physical and emotional impact of the disease from diagnosis onwards, to work with families in distress, and to diagnose and treat a range of behavioral, psychological, and psychiatric issues. The book also addresses the burgeoning fields of social media, complementary therapies, palliative care, and survivorship. Among the variety of useful resources supplied are assessment tools, websites, and additional reading materials. The psychosocial issues that arise for children and their families during the course of treatment are an important yet often overlooked aspect of pediatric oncology care. The reader will find that Pediatric Psychosocial Oncology: Textbook for Multidisciplinary Care covers these issues at the forefront of clinical care in a direct and approachable way, integrating research literature with practical clinical guidance.

DESIGN FOR HEALTH

Taylor & Francis One of the most complex global challenges is improving wellbeing and developing strategies for promoting health or preventing 'illbeing' of the population. The role of designers in indirectly supporting the promotion of healthy lifestyles or in their contribution to illbeing has emerged. This means designers now need to consider, both morally and ethically, how they can ensure that they 'do no harm' and that they might deliberately decide to promote healthy lifestyles and therefore prevent ill health. Design for Health illustrates the history of the development of design for health, the various design disciplines and domains to which design has contributed. Through 26 case studies presented in this book, the authors reveal a plethora of design research methodologies and research methods employed in design for health. The editors also present, following a thematic analysis of the book chapters, seven challenges and seven areas of opportunity that designers are called upon to address within the context of healthcare. Furthermore, five emergent trends in design in healthcare are presented and discussed. This book will be of interest to students of design as well as designers and those working to improve the quality of healthcare.

HERBICIDES

ENVIRONMENTAL IMPACT STUDIES AND MANAGEMENT APPROACHES

BoD - Books on Demand **Weeds severely affect crop quality and yield. Therefore, successful farming relies on their control by coordinated management approaches. Among these, chemical herbicides are of key importance.** Their development and commercialization began in the 1940's and they allowed for a qualitative increase in crop yield and quality when it was most needed. This book blends review chapters with scientific studies, creating an overview of some the current trends in the field of herbicides. Included are environmental studies on their toxicity and impact on natural populations, methods to reduce herbicide inputs and therefore overall non-target toxicity, and the use of bioherbicides as natural alternatives.

CREATING AND MANAGING A TECHNOLOGY ECONOMY

World Scientific **The International Association for Management of Technology (IAMOT) is one of the largest scientific associations dedicated to advance the education, research and application of management of technology.** The annual IAMOT conference assembles the most prominent scientists and experts in the field. The 17th conference held in 2008 included over 300 papers by experts from various countries. This volume is a collection of the best, high quality papers presented at the conference, covering topics and issues related to the knowledge economy, commercialization of knowledge, green technologies, and sustainable development.

SOCIAL SERVICES DISRUPTED

CHANGES, CHALLENGES AND POLICY IMPLICATIONS FOR EUROPE IN TIMES OF AUSTERITY

Edward Elgar Publishing **This book revives the discussion on public social services and their redesign, with a focus on services relating to care and the social inclusion of vulnerable groups, providing rich information on the changes that occurred in the organisation and supply of public social services over the last thirty years in different European places and service fields. Despite the persisting variety in social service models, three shared trends emerge: public sector disengagement, 'vertical re-scaling' of authority and 'horizontal re-mix' in the supply system. The consequences of such changes are evaluated from different perspectives - governance, social and territorial cohesion, labour market, gender - and are eventually deemed 'disruptive' in both economic and social terms. The policy implications of the restructuring are also explored. This title will be Open Access on Elgaronline.com.**
