This movement has picked up momentum among scholars, particularly in terms of research in the area of Spirituality. While spirituality as a term is employed in many new studies, this term continues to defy the quest for a single definition and method. This book is divided into three sections. In the first the authors reflect on the philosophical and theological issues presented by these terms from a variety of both cognate and practical methodological approaches. The second section offers insights from the major professions of sociology, psychology, public health, nursing and social work. The final section offers insight and assistance to researchers and authors on specific religious traditions. This book will be important for anyone working to develop such practical tools as spiritual assessment forms to those who engage in more formal scholarly investigation. *Jewish and Christian Doctrines The Classics Compared* Routledge *Jewish and Christian Doctrines* presents a concise and lucid introduction to the foundations of Judaism and Christianity. The authors explore key documents of Judaism and Christianity to elucidate and illuminate the doctrinal issues which the documents raise and to examine the similarities and differences between the two faiths. *Choice Publication of the Association of College and Research Libraries, a Division of the American Library Association Library Journal* Judas and the Choice of Matthias A Study on Context and Concern of Acts 1:15-26 Mohr Siebeck In this volume Arie Zwiep examines the character and purpose of the Judas-Matthias pericope in Acts 1:15-26 in the wider context of Jewish, Graeco-Roman and early Christian traditions on the death of the wicked in terms of divine retribution. Through a comprehensive analysis of form and function of the pericope in its historical and literary context, this study seeks to discern the distinctly Lukan perspective in the light of first-century reflection on the figure of Judas Iscariot, the role of the Twelve in the earliest Christian communities, and current eschatological expectations that have coloured Luke's narrative presentation. Special consideration is given to the concurrent versions of Judas' death in Matthew 27:3-10 and the writings of Papias. *Church & Synagogue Libraries Multifaceted Explorations of Consumer Culture and Its Impact on Individuals and Society* IGI Global Consumer culture influences virtually all activities within modern societies and has become an important area of study for businesses. Logical analysis of consumer behavior is difficult as humans have different reasons for repeatedly buying products they need or want, and it is challenging to follow why they buy unneeded or unwanted products regularly. Without a comprehensive understanding of consumer culture as the basis, market discussions become empty and produce little insight into the power consumers hold in affecting other individuals and society. *Multifaceted Explorations of Consumer Culture and Its Impact on Individuals and Society* provides emerging research from different perspectives on the basis and ramifications of consumer culture, as well as how it affects all aspects of the lives of individuals. While providing a platform for exploring interpersonal interactions and issues related to ethics in marketing, readers will gain valuable insight into areas such as consumer vs. producer mentality, the effects of consumerism on developing countries, and the consequences of consumerism. This book is an important resource for marketing professionals, business managers, sociologists, students, academicians, researchers, and consumer professionals. *Gems of Christian Psalmody: comprising a selection of the best hymns ... adapted to standard music, etc* Library Journal Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). It describes how the 12 apostles, formerly Jesus's disciples, spread the message of Christianity throughout the Mediterranean against a background of persecution. With an introduction by P.D. James "In Jesus' Name" The History and Beliefs of Oneness Pentecostals BRILL *Jehovistic names and titles of God. The attributes of God. Sins. Christian dogmatics* The Spirit of Contradiction in Christianity and Buddhism Oxford University Press The cognitive science of religion has shown that abstract religious concepts within many established religious traditions often fail to correspond to the beliefs of the vast majority of those religions' adherents. And yet, while the cognitive approach to religion has explained why these "theologically correct" doctrines have difficulty taking root in popular religious thought, it is largely silent on the question of how they developed in the first place. Hugh Nicholson aims to fill this gap by arguing that such doctrines can be understood as developing out of social identity processes. He focuses on the historical development of the Christian doctrine of *Consubstantiality*, the claim that the Son is of the same substance as the Father, and the Buddhist doctrine of *No-self*, the claim that the personality is reducible to its impersonal physical and psychological constituents. Both doctrines are maximally counterintuitive, in the sense that they violate the default expectations that human beings spontaneously make about the basic categories of things in the world. Nicholson argues that that these doctrines were each the products of intra- and inter-religious rivalry, in which one faction tried to get the upper hand over its ingroup rivals by maximizing the contrast with the dominant outgroup. Thus the "pro-Nicene" theologians of the fourth century developed the concept of *Consubstantiality* in the context of an effort to maximize, against their "Arian" rivals, the contrast with Christianity's archetypal "other," Judaism. Similarly, the *No-self* doctrine stemmed from an effort to maximize, against the so-called *Personalist* schools of Buddhism, the contrast with *Brahmanical Hinduism* with its doctrine of an unchanging and eternal self. In this way, Nicholson shows how religious traditions, to the extent that their development is driven by social identity processes, can back themselves into doctrinal positions that they must then retrospectively justify. *Identity, Ethics, and Ethos in the New Testament* Walter de Gruyter The book deals with the relation between identity, ethics, and ethos in the New Testament. The focus falls on the way in which the commandments or guidelines presented in the New Testament writings inform the behaviour of the intended recipients. The habitual behaviour (ethos) of the different Christian communities in the New Testament are plotted and linked to their identity. Apart from analytical categories like ethos, ethics, and identity that are clearly defined in the book, efforts are also made to broaden the specific analytical categories related to ethical material. The way in which, for instance, narratives, proverbial expressions, imagery, etc. inform the reader about the ethical demands or ethos is also explored. *Direct Marketing List Source Book Review Digest* The Dictionary of Demons Names of the Damned Llewellyn Worldwide The Dictionary of Demons starts with a simple premise: names have power. In medieval and Renaissance Europe, it was believed that speaking a demon's true name could summon it, compel it, and bind it. Occult scholar Michelle Belanger has compiled the most complete compendium of demonic names available anywhere, using both notorious and obscure sources from the Western grimoiric tradition. Presented alphabetically from Aariel to Zynextyur, more than 1,500 demons are introduced, explored, and cross-referenced by theme and elemental or planetary correspondence. This meticulously researched reference work features fascinating short articles on demonology and a wealth of woodcuts, etchings, and paintings depicting demons through the ages. *Christianity, Judaism and Other Greco-Roman Cults Studies for Morton Smith at Sixty.y* BRILL *Christianity, Judaism and Other Greco-Roman Cults, Part 3* Judaism Before 70 Wipf and Stock Publishers The editor hopes that these papers, on themes of interest to Morton Smith, will contribute to the critical discussion of some problems of concern to him. Since Smith is one of the great scholarly masters of this generation, it is through scholarship, and not through encomia, that the editor and his colleagues choose to pay their tribute. The facts about the man, his writings, his critical judgment, intelligence, erudition and wit, his labor as selfless teacher and objective, profound critic speak for themselves and require no embellishment.... I hope that the quality of what follows will impress my teacher, Professor Morton Smith, and those scholars who care to read these volumes, as having been worth the immense efforts of all concerned. This book is written expressly for Wiccans who wish to walk the spiritual path of earth-based religions, but do not wish to surrender their Judeo-

Christian background. Nancy now offers a simple solution to the rapidly emerging ChristoPagan community. Wicca, the Old Religion, or the religion of the wise, is the fastest growing form of spirituality in the United States. Many modern and eclectic Christians have no problem recognizing Jesus as Lord, but instead have a problem accepting the dogma of the organized church. Seekers are also feeling the absence of the Female aspect of the Divine and wish to re-establish the Goddess in their spirituality. In the wake of the discoveries of the Nag Hammadi Library, for the first time since 100-300 A.C.E. - the yin of the Christian faith is seeking to restore its yang! Despite the overwhelming evidence that there is a Divine Mother --- no one has applied this information to Wicca and the Holy Days of the Wheel of the Year. "Christian Wicca: the Trinitarian Tradition" does this very task, outlining the Sabbats, the Esbats to include the Holy Trinity . . . also introducing observances expressly for Jesus, called Kyriats! Between Jesus and Paul Studies in the Earliest History of Christianity Wipf and Stock Publishers More happened in the period between Jesus and Paul, Professor Hengel argues, than in the whole of the next seven centuries, up to the time when the doctrine of the early church was completed. Certainly these decades are crucial to our understanding of the development of earliest Christianity. However, they are very much a *ÖtunnelÖ* period, and there is little to shed light on it. This volume does something to pierce the darkness. Among other issues, it considers the origins of the Christian mission, the role of the Hellenists, the reliability of Luke as a geographer when he is dealing with events in Palestine in the Acts of the Apostles, and the development of christological belief, particularly in Christian worship. Those familiar with Professor Hengel's work will know that they will find here a wealth of valuable insight based on painstaking examination of all available sources. Hamilton's selection of Psalm and Hymn tunes, specially arranged for the Harmonium, etc Sanctifying the Name of God Jewish Martyrs and Jewish Memories of the First Crusade University of Pennsylvania Press How are martyrs made, and how do the memories of martyrs express, nourish, and mold the ideals of the community? Sanctifying the Name of God wrestles with these questions against the background of the massacres of Jews in the Rhineland during the outbreak of the First Crusade. Marking the first extensive wave of anti-Jewish violence in medieval Christian Europe, these "Persecutions of 1096" exerted a profound influence on the course of European Jewish history. When the crusaders demanded that Jews choose between Christianity and death, many opted for baptism. Many others, however, chose to die as Jews rather than to live as Christians, and of these, many actually inflicted death upon themselves and their loved ones. Stories of their self-sacrifice ushered the Jewish ideal of martyrdom—*kiddush ha-Shem*, the sanctification of God's holy name—into a new phase, conditioning the collective memory and mindset of Ashkenazic Jewry for centuries to come, during the Holocaust, and even today. The Jewish survivors of 1096 memorialized the victims as martyrs as they rebuilt their communities during the decades following the Crusade. Three twelfth-century Hebrew chronicles of the persecutions preserve their memories of martyrdom and self-sacrifice, tales fraught with symbolic meaning that constitute one of the earliest Jewish attempts at local, contemporary historiography. Reading and analyzing these stories through the prism of Jewish and Christian religious and literary traditions, Jeremy Cohen shows how these persecution chronicles reveal much more about the storytellers, the martyrologists, than about the martyrs themselves. While they extol the glorious heroism of the martyrs, they also air the doubts, guilt, and conflicts of those who, by submitting temporarily to the Christian crusaders, survived. SRDS Hispanic Media & Market Source About the King's Choice to Build His Palace Right on Top of the Dunghill Or, How to Conceptualize Jewishly iUniverse ISRAEL; the people, the nation, the religion. While remaining acutely aware of the shortcomings of both Heidegger and Derrida, the writer nevertheless uses insights and terminology from their discourse in the service of exposing the historical and thought trends of hegemonic proportions which have had the effect of deracinating Judaism from ISRAEL. The writer makes the claim that a "critical/spelunkative" analysis of what went into that final and anonymous redaction of the Babylonian Talmud points the way towards a retrieval of Judaism's "burning living center." The writer further contends that such a retrieval can have the effect of "returning" [teshuba] Judaism back to ISRAEL.
