THE STORY AND TRIALS OF ADOLPH JULIUS WEBER

Trafford Publishing The mystery surrounding the accuser only deepened as more facts became known. In the fall of 1905, the State of California was forced to change its inheritance law. The State Legislature enacted what was being referred to then as "The Patricide Law". This book is about the young individual (20 years of age) who caused the enactment of that law. This book is about Adolph Julius Weber, who was arrested for what was considered at the time as one of the most atrocious crimes ever committed in California at the start of the 20th century. It being committed in the small town of Auburn, Calidornia, a population of 2,000. Adolph Weber had not only committed Patricide, but Matricide, Parricide and Fratricide. This book takes an in-depth look at the events that surrounded the crimes that were committed, and follows the events surrounding Adolph J. Weber as they unfolded and were followed by the newspapers. Although there was no actual proof that Adolph J. Weber committed the crime, he became the prime suspect, partly because of his own actions after the murders, thus Adolph Weber was arrested and eventually tried for the crime mostly on circumstantial evidence. the book covers the Coroner's Inquest that was held, the Preliminary Examination, the Grand Jury, the Trial itself, and the appeal to the State Supreme Court, and a number of interesting events that occurred during the time the various hearings and such were taking place. The book covers the period from 1904 through 1906 and much of what was actually said by the accused at different times as reported by the newspapers from that time period. There were more lawyers involved in this case than in any other period were different as they are now Some of what took place although considered legal at the time is not legal today. Hence, it could have been possible, following today's law standards, the accused could possibly been found innocent of the crime he was convicted of, thus it could be said was he given a fair trial? What also makes this story interesting is the different side issues that arose out of the multiple crimes he was thought to have committed.

INDIGENOUS BODIES

REVIEWING, RELOCATING, RECLAIMING

State University of New York Press An interdisciplinary exploration of indigenous bodies. This interdisciplinary collection of essays, by both Natives and non-Natives, explores presentations and representations of indigenous bodies in historical and contemporary contexts. Recent decades have seen a wealth of scholarship on the body in a wide range of disciplines. Indigenous Bodies extends this scholarship in exciting new ways, bringing together the disciplinary expertise of Native studies scholars from around the world. The book is particularly concerned with the Native body as a site of persistent fascination, colonial oppression, and indigenous agency, along with the endurance of these legacies within Native communities. At the core of this collection lies a dual commitment to exposing numerous and diverse disempowerments of indigenous peoples, and to recognizing the many ways in which these same people retained and/or reclaimed agency. Issues of reviewing, relocating, and reclaiming bodies are examined in the chapters, which are paired to bring to light juxtapositions and connections and further the transnational development of indigenous studies. Jacqueline Fear-Segal is Reader in American History and Culture at the University of East Anglia and the author of White Man's Club: Schools, Race, and the Struggle of Indian Acculturation. Rebecca Tillett is Senior Lecturer in American Literature and Culture at the University of East Anglia and the author of Contemporary Native American Literature.

TOPLESS CELLIST

THE IMPROBABLE LIFE OF CHARLOTTE MOORMAN

MIT Press The first book to explore the extraordinary career of musician and performance artist Charlotte Moorman, whose work combined classical rigor, avant-garde experiment, and madcap daring. The Juilliard-trained cellist Charlotte Moorman sat nude behind a cello of carved ice, performed while dangling from helium-filled balloons, and deployed an array of instruments on The Mike Douglas Show that included her cello, a whistle, a cap gun, a gong, and a belch. She did a striptease while playing Bach in Nam June Paik's Sonata for Adults Only. In the 1960s, Moorman (1933-1991) became famous for her madcap (and often unclothed) performance antics; less famous but more significant is Moorman's transformative influence on contemporary performance practice—and her dedication to the idea that avant-garde art should reach the widest possible audience. In Topless Cellist, the first book to explore Moorman's life and work, Joan Rothfuss rediscovers, and recovers, the legacy of an extraordinary American artist. Moorman's arrest in 1967 for

performing topless made her a water-cooler conversation-starter, but before her tabloid fame she was a star of the avant-garde performance circuit, with a repertoire of pieces by, among others, Yoko Ono, Joseph Beuys, John Cage, and Paik, her main artistic partner. Moorman invented a new mode of performance that combined classical rigor, jazz improvisation, and avant-garde experiment—informed by intuition, daring, and love of spectacle. Moorman's annual festival of the avant-garde offered the public a lively sampler of contemporary art in performance, music, dance, poetry, film, and other media. Rothfuss chronicles Moorman's life from her youth in Little Rock, Arkansas (where she was "Miss City Beautiful" of 1952) through her career in New York's avant-garde to her death from breast cancer in 1991. (Typically, she approached her treatment as if it were a performance.) Deeply researched and profusely illustrated, *Topless Cellist* offers a fascinating, sometimes heartbreaking, often hilarious story of an artist whose importance was more than the sum of her performances.

THE FIVE BOOKS OF MOSES

KTAV Publishing House, Inc. Sol Scharfstein's new translation of the Torah (The Five Books of Moses) is written with a sense of piety and awe for the majesty and sanctity of the biblical text, it conveys the content of the Five Book of Moses in language that is easy to read and understand. The message of the Bible is ageless, but for full comprehension, it must be presented in language suited to the time and place of the reader. Scharfstein's fluent, idiomatic translation does exactly this--replacing the ancient robes of 4000 years ago in which the Torah was given on Sinai with up-to-date garments of the 21st century that preserve its inner essence but make it familiar and user-friendly. The weekly readings and their divisions are all clearly designated, and each book of the Torah is preceded by a brief introduction that explains its most important aspects. In addition, a long introductory illustrated essay gives a full account of the place of the Torah in Judaism and in the synagogue service. All in all, this new translation will prove to be an essential addition to the home library of people of all faiths.

THE MARTIANS HAVE LANDED!

A HISTORY OF MEDIA-DRIVEN PANICS AND HOAXES

McFarland History is replete with examples of media-created scares and panics. This book presents more than three dozen studies of media scares from the 17th century to the 21st century, including hoaxes perpetrated via newspapers, radio, television and cyberspace. From the 1835 batmen on the Moon hoax to more recent bird flu scares and Hurricane Katrina myths, this book explores hoaxes that highlight the impact of the media on our lives and its tendency to sensationalize. Most of the hoaxes covered occurred in the United States, though incidents from Europe, Asia, Africa, South America and Australia are featured as well. Several are global in scope, revealing the power global media wields.

THE SUNDAY SCHOOL JOURNAL

THE REAL CUSTER

FROM BOY GENERAL TO TRAGIC HERO

Simon and Schuster The Real Custer takes a good hard look at the life and storied military career of George Armstrong Custer—from cutting his teeth at Bull Run in the Civil War, to his famous and untimely death at Little Bighorn in the Indian Wars. Author James Robbins demonstrates that Custer, having graduated last in his class at West Point, went on to prove himself again and again as an extremely skilled cavalry leader. Robbins argues that Custer's undoing was his bold and cocky attitude, which caused the Army's bloodiest defeat in the Indian Wars. Robbins also dives into Custer's personal life, exploring his letters and other personal documents to reveal who he was as a person, underneath the military leader. The Real Custer is an exciting and valuable contribution to the legend and history of Custer that will delight Custer fans as well as readers new to the legend.

THE ENGLISHMAN'S GREEK CONCORDANCE OF THE NEW TESTAMENT; BEING AN ATTEMPT AT A VERBAL CONNEXION BETWEEN THE GREEK AND THE ENGLISH TEXTS, ETC. [BY GEORGE V. WIGRAM, ASSISTED BY WILLIAM BURGH.] L.P.

A BRIEF LITERARY HISTORY OF DISABILITY

Taylor & Francis A Brief Literary History of Disability is a convenient, lucid, and accessible entry point into the rapidly evolving conversation around disability in literary studies. The book follows a chronological structure and each chapter pairs a well-known literary text with a foundational disability theorist in order to develop a simultaneous understanding of literary history and disability theory. The book as a whole, and each chapter, addresses three key questions: • Why do we even need a literary history of disability? • What counts as the literature of disability? • Should we even talk about a literary aesthetic of disability? This book is the ideal starting point for anyone wanting to add some disability studies to their literature teaching in any period, and for any students approaching the study of literature and disability. It is also an efficient reference point for scholars looking to include disability studies approaches in their research.

THE CULTURAL ENCYCLOPEDIA OF BASEBALL, 2D ED.

McFarland More than any other sport, baseball has developed its own niche in America's culture and psyche. Some researchers spend years on detailed statistical analyses of minute parts of the game, while others wax poetic about its players and plays. Many trace the beginnings of the civil rights movement in part to the Major Leagues' decision to integrate, and the words and phrases of the game (for example, pinch-hitter and out in left field) have become common in our everyday language. From AARON, HENRY onward, this book covers all of what might be called the cultural aspects of baseball (as opposed to the number-rich statistical information so widely available elsewhere). Biographical sketches of all Hall of Fame players, owners, executives and umpires, as well as many of the sportswriters and broadcasters who have won the Spink and Frick awards, join entries for teams, owners, commissioners and league presidents. Advertising, agents, drafts, illegal substances, minor leagues, oldest players, perfect games, retired uniform numbers, superstitions, tripleheaders, and youngest players are among the thousands of entries herein. Most entries open with a topical quote and conclude with a brief bibliography of sources for further research. The whole work is exhaustively indexed and includes 119 photographs.

FLESH AND BLOOD

ORGAN TRANSPLANTATION AND BLOOD TRANSFUSION IN 20TH CENTURY AMERICA

Oxford University Press Organ transplantation is one of the most dramatic interventions in modern medicine. Since the 1950s thousands of people have lived with 'new' hearts, kidneys, lungs, corneas, and other organs and tissues transplanted into their bodies. From the beginning, though, there was simply a problem: surgeons often encountered shortages of people willing and able to give their organs and tissues. To overcome this problem, they often brokered financial arrangements. Yet an ethic of gift exchange coexisted with the 'commodification of the body'. The same duality characterized the field of blood transfusion, which was essential to the development of modern surgery. This book will be the first to bring together the histories of blood transfusion and organ transplantation. It will show how these two fields redrew the lines between self and non-self, the living and the dead, and humans and animals. Drawing on newspapers, magazines, legal cases, films and the papers and correspondence of physicians and surgeons, Lederer will challenge the assumptions of some bioethicists and policymakers that popular fears about organ transplantation necessarily reflect timeless human concerns and preoccupations with the body. She will show how notions of the body- intact, in parts, living and dead- are shaped by the particular culture in which they are embedded.
