Flora and Tiger

19 Very Short Stories from My Life

Philomel The author recalls experiences from his childhood in Germany and his later life in the United States, all in some way connected with various animals.

Biodiversity of Ranthambhore Tiger Reserve Rajasthan

Scientific Publishers The present book on the Biodiversity of Ranthambhore Tiger Reserve deals with 539 species of higher plants and 361 species of animals (vertebrates). Besides geographical position and topography, the abiotic components, viz. geology, soils, water, climatic conditions etc., which determine the composition of biota in an ecosystem, have been discussed in details. Correct and valid names have been adopted for the floral and faunal elements along with local and English names. The keys have been provided for plant species from infra-specific to family level for easy identification. The short diagnostic description, phenology, ecology and distributional aspects have been provided under each plant species. Besides statistical analysis of floral composition, the phytogeographical and biological spectra have also been worked out to determine the routes of migration and phytoclimate respectively. Bioperspective value of the Reserve has been assessed to determine the economic potentiality and sustainable utilization of bioresources. The faunal diversity includes vertebrate fauna only, arranged in a classified manner. The shelter and feeding habits along with dependency of fauna on vegetation have been provided to determine plant-animal relationship and flow of energy. Details about endemic and threatened species of plants and animals, along with causes of threats, have been given for proper management of the Reserve. About 107 colour photographs of habitat and plants and animals with 36 illustrations of plant species have been provided. Several maps, pie charts, graphs, figures etc, along with data-tables, are appended to illustrate the findings. It is hoped that the book will prove a milestone in the management of the Reserve.

THE EYE OF TIGER

Discover Untold Secrets of the World of Tigers!

Notion Press Have you ever touched the whiskers of a wild tiger? Here is a man, who had an appointment with a striped lady, the tigress along with cubs at her heels, spending breathtaking time over the entire moonlit night! It was as though he had an affair with the tigress; according to him, there was neither sin nor shame! Read, how secret telepathic conversations between the man and the striped lady went on through the night. The presentation in the book is woven around unknown secrets of the world of tigers to the human world. Tigers are wild by nature and hunters by instinct. When you are lucky to spot one in the wild, maintain pin-drop silence and enjoy the creation of Nature-God. This is the crux of *The Eye of Tiger*, which signifies extraordinary perceptions, be it the tiger tribe or human society. Readers, please remember, tigers are not human models one would expect to walk the ramp! Head out for an early morning safari in search of a tiger in a nearby tiger reserve with a trained eye and ear to spot one and shoot him, if you can, with your camera and take home green memories, nothing else. Happy reading!

The Chatelaine

Eliza Ferraby's Story: 3

Sleepy Wombatt Press There is little doubt that the obsequious voters of Tapperbridge will ratify the Duke of Mulcaster's choice and elect Josiah Ferraby a Member of Parliament, but the formalities must be observed in proper order. This new departure for the Ferrabys will bring about great changes in their lives. A move to Town; Eliza taking charge of the oversight of domestic affairs of Raxdell House when they go to reside in the East Wing; making new acquaintance and finding that relationships with old friends and family are changing. But they still have the love and contrivances of their treasured third, Clorinda, Dowager Marchioness of Bexbury, becoming ever more one of the family.

Sustainable Tourism & The Millennium Development

Goals

Flora's Empire

British Gardens in India

Penguin UK The British created gardens in India not just out of simple nostalgia or homesickness, but also to put a visible stamp of 'civilization' on an alien, untamed land. Colonial gardens changed over time, from the 'garden houses' of the East India Company's nabobs modelled on English country estates, and hill station cottages where English flowers could be coaxed into bloom, to the neat flowerbeds, gravel walks, well-trimmed lawns and hedges of the Victorian sahibs. Every Government House, Civil Lines bungalow and cantonment was carefully landscaped to reflect current ideals of an ordered society. The British also made India part of the global network of botanical exploration and plant-collecting, and developed tea gardens and opium-poppy plantations to fill the coffers of the Empire. More than sixty years after the British left, their garden legacy still lives on, reflected in the design of municipal parks and IT campuses, and in the tastes and practices of countless Indian home gardeners who take pride in their green lawns and flowerbeds full of English flowers.

Land of the Striped Stalker

Wildlife of Madhya Pradesh

SCB Distributors There is nothing quite like the thrill and awe of seeing a tiger in the wild, or hearing the rutting call of a Barasingha stag and the alarm call of a Spotted deer in its natural habitat. The tiger is India's iconic national animal, and Madhya Pradesh is virtually a 'tigerland'. Places like Kanha, Bandhavgarh, Pench, Satpura and the nearby forests are home to the bulk of the population of tigers, their co-predators, prey and habitat of Central India. The state has a diversity of life forms owing to its rich, unique geographical and climatic attributes. The large number of protected areas in the state highlights the concern and efforts of the state government to conserve and protect its floral and faunal heritage. Land of the Striped Stalker: Wildlife of Madhya Pradesh presents a broad picture of the prominent tiger reserves, protected areas and flora and fauna of Madhya Pradesh. The information provided in this book will not only help visitors plan their trips to the protected areas and tiger reserves of Madhya Pradesh, but will also foster awareness about the ecological imperatives to protect the wildlife of the region.

Fauna of Corbett Tiger Reserve, Uttarakhand

There's a Tiger in the Garden

Frances Lincoln Children's Books WINNER of the Waterstones Children's Book Prize 2017, Illustrated Books Category Over 50,000 copies sold in the UK When Grandma says she's seen a tiger in the garden, Nora doesn't believe her. She's too old to play Grandma's silly games! Everyone knows that tigers live in jungles, not gardens... So even when Nora sees dragonflies with wings as big as her arm, and plants that try and eat her toy giraffe, and a polar bear that likes fishing, she knows there's absolutely, DEFINITELY no way there could be a tiger in the garden... Could there? Written and illustrated by Lizzy Stewart, Nora's grandma's garden becomes a paradise filled by fluttering wings, a deep and dangerous jungle, and even a polar fishing pond. The wonderfully independent Nora, accompanied by her best friend Jeff the Giraffe, gradually discovers the fun of imagining in this instant classic. This magical picture book about imagination and play will spark the interest of every child.

Biodiversity and Its Conservation in India

Indus Publishing

Cell Biology, Genetics, Molecular Biology, Evolution and Ecology

Evolution and Ecology

S. Chand Publishing The revised edition of this bestselling textbook provides latest and detailed account of vital topics in biology, namely, Cell Biology, Genetics, Molecular Biology, Evolution and Ecology . The treatment is very exhaustive as the book devotes exclusive parts to each topic, yet in a simple, lucid and concise manner. Simplified and well labelled diagrams and pictures make the subject interesting and easy to understand. It is developed for students of B.Sc. Pass and Honours courses, primarily. However, it is equally useful for students of M.Sc. Zoology, Botany and Biosciences. Aspirants of medical entrance and civil services examinations would also find the book extremely useful.

THE TIGER

Keeper of the Forest

Notion Press Get ready for an adrenalin-packed adventure across the tiger reserves of Madhya Pradesh, as the young author passionately trails the striped beauty in its natural habitat. The author's vivid account of his encounters in the wilderness will magically transport you to the jungles of Central India. Out in the jungles, you are sure to hear the calls of the sambars and cheetals and feel the stealthy movements of the tigers and leopards waiting to prey upon their unsuspecting victims. Amidst all the action and thrill, you will also discover astonishing facts about the big cat and its unique behavior in the wild and understand the need to save our glorious tigers from vanishing into oblivion.

Bones of the Tiger

Of Man-eating Tigers and Tiger-eating Men

Penguin UK Tiger, tiger, burning bright In the forests of the night Majestic and beautiful, ferocious and lethal, the tiger has captivated the imaginations of people the world over for centuries. Inspiring myth and folklore as a graceful creature and terrifying predator, this big cat has long paced the jungles of Asia in a history strewn with conflict between man and beast—man-eating tigers have terrorized people for centuries. But in the twenty-first century, this conflict has turned on its head—tiger-eating men fund a very lucrative black market for tiger parts, and poachers and habitat destruction have brought the population down to less than 3500 individuals in the world today. A true adventure tale, Bones of the Tiger tells the fascinating story of one man's quest to save the man-eating tigers of Nepal.

Land of the Tiger

A Natural History of the Indian Subcontinent

Univ of California Press Showcases the diversity and beauty of the animals sharing the tiger's domain and documents the strain that modern and urban values place on India's ecosystems

IUCN Red List Categories and Criteria

IUCN The threatened species categories used in Red Data Books and Red Lists have been in place for almost 30 years. The IUCN Red List Categories and Criteria provide an easily and widely understood system for classifying species at high risk of global extinction, so

as to focus attention on conservation measures designed to protect them. This latest version of the classification system was adopted by the IUCN Council in February 2001 and reflects comments from the IUCN and SSC memberships and the final meeting of the Criteria Review Working Group.

Shanghai & Surroundings Travel Adventures

Hunter Publishing, Inc Eastern China is the country's boom-belt and its heart is the Pearl of the Orient, Shanghai, a city which was recently wonderfully described to me as "Hong Kong on steroids." Shanghai is the country's most modern city, but manages to retain both its Chinese and European history and its economic development is also helping a renaissance in culture and the arts, along with a shopping and nightlife scene matched only by Beijing and Hong Kong. Around Shanghai, the Water Towns have picturesque canals lined with classic Ming architecture and can make for great day trips, and a little further out, the city of Suzhou offers more of the same, albeit on a larger scale, along with some of the country's finest gardens and the opportunity for some serious silk shopping. Nearly 100 miles south along the Grand Canal, the former Southern Song dynasty (1126-1279) capital of Hangzhou is set on pretty West Lake and is a prime tea-growing region. Away from the lake the city is much like any other Chinese city, but the surrounding countryside and its smattering of temples and tea villages make for some excellent bike rides. Some 110 miles west of Hangzhou, Huangshan is arguably the most beautiful of eastern China's mountains and offers the region's finest scenery and best hiking. The mountain's mist-shrouded, jagged peaks, lone pines and perched temples are straight from a watercolor and it's no wonder Huangshan attracts so many visitors. But fortunately there are enough paths to ensure you can always find yourself a quiet spot. Known as the Pearl of the Orient, Shanghai has endured a boom-bust cycle like no other city in China and is a must-see for a glimpse into the China of the future. It currently has some 20 million residents. A walk along the Bund on the banks of the Huangpu River offers a cityscape to rival Hong Kong's, taking in the glory of Shanghai's colonial past, while at the same time giving views across the river to the city of tomorrow, Pudong. Less than 20 years ago, this was just marshy farmland, but today it boasts countless skyscrapers, among them China's highest tower, the Pearl Oriental TV Tower, and loftiest lodgings, the 88-floor Grand Hyatt. Traditional Chinese sights are a little sparse due to Shanghai's comparative youth, but its colonial and revolutionary history over the past 150 years has left it with a series of significant political buildings. What is more, there are modern activities aplenty, reflecting the city's dynamic and modern heart - fine dining, nightlife, shopping and a kaleidoscope of exhibition centers and good museums await. This a highly detailed guide to everything you need to know about Shanghai and its surroundings - the places to stay, the restaurants, and what to see and do - along with an extensive introductory section on China as a whole. The author lives in China and has been a tour guide there full-time for close to 10 years. This guide is an excerpt from his much larger guide to all of China, also published by Hunter, which is 650 pages in the print edition.

Fauna of Melghat Tiger Reserve

Amur Tiger

Russian Nature Press

Ecotourism in Rajaji Tiger Reserve

BlueRose Publishers The book 'Ecotourism in Rajaji Tiger Reserve' is a unique and unusual blend of field work, observations and research on various aspects of ecotourism in Rajaji Tiger Reserve and possible approaches for its implementation. Written in an easy style, the book is of equal interest to the expert and the layperson. The author, a Scientist with the Ministry of Environment, Forest and Climate Change, spent more than a decade working in the Rajaji Tiger Reserve. Book gives a broader insight in to the ecotourism promotion and wildlife conservation. The nature-based attraction sites for tourists in and around the reserve, priority interventions, code of ethics and risk management documented in the book reflect a roadmap for better management of the Rajaji Tiger Reserve and in minimizing the man-animal conflict in north India.

Dragonfire

Penguin Alex Hawke, British lord and gentleman spy, is looking for the Queen's missing grandson, whose disappearance may be the culmination of a plot almost a century old in this breathtaking new adventure from New York Times bestselling novelist Ted Bell. December 8, 1941, Washington, D.C. The new Chinese ambassador to the United States, Tiger Tang, meets with President Roosevelt one day after the attack on Pearl Harbor. For the next four years, China and the U.S. will be wartime allies, but the charming, sophisticated ambassador may be playing his own treacherous game. Today, The Bahamas Alex Hawke is recovering from serious injuries incurred during a battle with a malevolent enemy. His recuperation is interrupted by a desperate call from the Queen. Her favorite grandson has disappeared in the Bahamas. Lord Hawke is the only man she trusts with a mission this sensitive. All she knows is that the young prince was last seen at the exclusive Dragonfire nightclub owned by the nefarious Tang brothers, grandsons of Ambassador Tiger Tang.

American Insects

A Handbook of the Insects of America North of Mexico, Second Edition

CRC Press Offering a complete accounting of the insects of North America, this handbook is an up-dated edition of the first handbook ever compiled in the history of American entomology. By using American Insects, A Handbook of the Insects of America North of Mexico, Second Edition, readers can quickly determine the taxonomic position of any species, genus, or higher taxon of insect known to occur in America and Canada. Every order, family, and genus is conveniently numbered and indexed, making this volume the only complete single source for all of the names of orders, families, and genera currently available. This book fills the need for an accurate way to identify, with the several hundred drawings and photos, the common insects of all orders. Now there is a tool available to those working without a major collection and library; and those who would like to have a general knowledge of insect life without becoming overwhelmed by the vast number of minute insect species. This usable guide provides sizes, shapes, color patterns and salient features of some species of each major family by pointing out those groups most likely to be encountered, including all North America pests. What's New in this Edition? Researchers in many orders use the results of cladistics, a new tool for determining the relationship of orders, families, genera, and species of organisms, including plants as well as animals Specialists have provided lengthy lists of generic changes Many of the identification keys have been revised by adding more illustrations and making sure all description terms are in the Glossary The bibliographies of each Order section have been updated to include all important works that have appeared since the original edition

Project Tiger Reserves

Resources, Diversity, Sustainability, Ecodevelopment

Daya Books The book on Project Tiger Reserve is the outcome of the authors long research work in Buxa Reserve in the past and recently on two World Bank Projects. In the first project they studied various facets of the resources and problems of the reserve and prepared a detailed set of guidelines which formed the basis for preparation of Management Plan of BTR. The second project involved besides those of earlier works, a thorough study, on people, their education, awareness, research and monitoring and various other relevant issues especially in village co-development. The book also gives a broad-base information on the past history of various tiger reserves, fact-based details on vegetation, predator and prey animals and problems of most of these reserves. This indepth work of Buxa Tiger Reserve which deals with various facets of background political history, management history, various biotic and abiotic factors, problem, peoples dependence on forests also suggest some remedial measures. Ecodevelopment, improved P.A. management, awareness, research, monitoring etc. have been discussed and achievement analysed. It is hoped this case study will act as a Model for future such studies in most of the Tiger Reserves. Contents Part I: Background Information; Chapter 1: Project tiger reserves (Tiger-Panthera tigris tigris Linn); Chapter 2: Twenty Years of the project; Part II: Resources-A Status Survey of Some Tiger Reserves of India; Chapter 3: Floristic bonanza as detailed by botanical survey of india (BSI); Chapter 4: Fauntistic bonanza as detailed by zoological survey of india; Chapter 5: Tiger reserves as viewed by director, project tiger indicating some problems and prospects; Part III: Sustainability and Ecodevelopment Study in Buxa Tiger Reserve (A Protected Area); Chapter 6: Ecodevelopment and sustainability study in protected areas; Chapter 7: Nature education and awareness; Part IV: Improved Protected Area Management in Buxa Tiger Reserve; Chapter 8: Background information; Chapter 9: Vegetation: quantitative data; Chapter 10: Vegetation: quantitative data; Chapter 11: Check-list on Fauna, predator-prey relationship, man-animal conflict and endangered species; Chapter 12: Values of forests; Part V: Improved Protected Area Management in Buxa Tiger Reserve; Chapter 13: Problems, threats, biodiversity loss and broad remedial measures; Part VI: Guidelines and Recommendations; Chapter 14: Guidelines for Management Plan and Sustainability of Buxa Tiger Reserve.
