The Complex Simplicity

Defining What Ministry Means in Modern Times

This book simplifies the meaning of ministry in modern times. It looks at concepts stated in the Bible and helps to apply that to daily life as most people know it. What does it mean to love others? What does it mean to be intentional? How can that be used in ministries across the nation? What does leading a missional life mean? These ideas and more are presented deep within the pages of this book and, more importantly, in the hearts of readers.

Times of History, Times of Nature

Temporalization and the Limits of Modern Knowledge

Berghahn Books As climate change becomes an increasingly important part of public discourse, the relationship between nature and time is changing. Nature can no longer considered to be a slow and immobile background to human history, and the future can no longer be viewed as open and detached from the past. *Times of History, Times of Nature* engages with this historical shift in temporal sensibilities through a combination of detailed case studies and synthesizing efforts. Focusing on the history of knowledge, media theory, and environmental humanities, this volume explores the rich and nuanced notions of time and temporality that have emerged in response to climate change.

Aimee Semple McPherson and the Making of Modern Pentecostalism, 1890-1926

Routledge Pentecostalism was born at the turn of the twentieth century in a "tumble-down shack" in a rundown semi-industrial area of Los Angeles composed of a tombstone shop, saloons, livery stables and railroad freight yards. One hundred years later Pentecostalism has not only proven to be the most dynamic representative of Christian faith in the past century, but a transnational religious phenomenon as well. In a global context Pentecostalism has attained a membership of 500 million growing at the rate of 20 million new members a year. Aimee Semple McPherson, born on a Canadian farm, was Pentecostalism's first celebrity, its "female Billy Sunday". Arriving in Southern California with her mother, two children and \$100.00 in 1920, "Sister Aimee", as she was fondly known, quickly achieved the height of her fame. In 1926, by age 35, "Sister Aimee" would pastor "America's largest 'class A' church", perhaps becoming the country's first mega church pastor. In Los Angeles she quickly became a folk hero and civic institution. Hollywood discovered her when she brilliantly united the sacred with the profane. Anthony Quinn would play in the Temple band and Aimee would baptize Marilyn Monroe, council Jean Harlow and become friends with Charlie Chaplain, Douglas Fairbanks and Mary Pickford. Based on the biographer's first time access to internal church documents and cooperation of Aimee's family and friends, this major biography offers a sympathetic appraisal of her rise to fame, revivals in major cities and influence on American religion and culture in the Jazz Age. The biographer takes the reader behind the scenes of Aimee's fame to the early days of her harsh apprenticeship in revival tents, failed marriages and poverty. Barfoot recreates the career of this "called" and driven woman through oral history, church documents and by a creative use of new source material. Written with warmth and often as dramatic as Aimee, herself, the author successfully captures not only what made Aimee famous but also what transformed Pentecostalism from its meager Azusa Street mission beginnings into a transnational, global religion.

Re-Figuring Theology

The Rhetoric of Karl Barth

SUNY Press Here is a rhetorical treatment of Karl Barth's early theology. Although scholars have long noted the rhetorical power of Barth's work, calling it volcanic and explosive, this book uses rhetoric to illuminate the peculiar nature of his prose. It displays a Barth whose prose is radically unstable and inseparable from his theological arguments. The author connects Barth's early theology to the Expressionism of the Weimar Republic. He develops an original theory of figures of speech, relying on the philosophies of Paul Ricoeur and Hayden White, to delve more deeply into the particular configurations of Barth's writings. Nietzsche's hyperbole and Kierkegaard's irony are examined as rhetorical precedents of Barth's style. The closing chapter surveys Barth's later, realistic theology and then suggests ways in which his earlier tropes, especially the figures of excess and self-negation, can serve to enable theology to speak today.

Communists and Champions

Routledge The Politicisation of Sport in Modern China: Communist and Champions is the first book in English which examines in chronological order key issues in sport in the People's Republic of China from 1949 to 2012 in the context of Chinese history, politics and society. From a Ministry for Youth to a Ministry of Youth

Aspects of Protestant Youth Ministry in Sydney 1930-1959

Wipf and Stock Publishers At a time of unprecedented secularization and declining church attendance, youth ministry in the twenty-first century should be doomed. So why is Protestant youth ministry in Sydney vibrant, and in many places growing? This book sets out to answer this question, which is of such importance for the future of the Australian church. A pioneering model of youth ministry evolved in the 1930s and was already flourishing in churches, schools, and university by the 1950s. Its early high point was the Billy Graham Crusade of 1959, which may legitimately be seen as an Australian youth revival. The new model broke with past practice by cultivating ministry leadership by young people, by promoting peer groups to nurture and share faith, and by fostering ministry collaboration between young men and women. The model, used by theological conservatives and liberals alike, and has proved both enduring and fruitful. This book will engage with the model of youth ministry and the religious experiences of young people in Sydney. By reading it you will not only learn from the significant achievements of young people in the past but be better equipped to creatively consider new methods of ministry for the twenty-first century.

Modern Railway Transportation

Proceedings of the International Conference Railways Organized by the Institution of Civil Engineers and Held in London on 25-27 May 1993

Thomas Telford After several decades of the promotion of road transport, we have realised that the provision of more roads will not on its own solve our traffic problems. Megatrends Defining the Future of Tourism

A Journey Within the Journey in 12 Universal Truths

Springer Nature This book identifies and describes five megatrends that will define the landscape of the Travel, Tourism & Hospitality industry, with a particular focus on the European context. Humans began travelling on the same day that Homo Sapiens first realized he could walk upright. No boundaries, mountains or cliffs have managed to stop or diminish our insatiable desire to find out what lies beyond the visible horizon. Tourism has enjoyed virtually uninterrupted growth for the past several decades, and the sector has now become the third-largest source of export revenue, after chemicals and fuel, and ahead of the automotive and food sectors. And yet, in its current globalised format, it is exposed to sudden shocks that can swiftly shake up the status quo accelerating the deployment of some megatrends here described. We have all witnessed the Covid-19 pandemic and its devastating consequences for the industry. While the number of international tourism arrivals to Europe has soared to over 700 million a year, at the same time we are experiencing a period of deep transformation. Bauman couldn't have been more accurate or insightful when he coined the word 'liquid' in this regard. As an exquisite expression of a civilized, rich and discerning first-world society, travel and tourism are now changing shape and meaning, requiring our business models to adapt. What are the megatrends that will dictate the future shape of our industry's landscape? Who is the new tourist, if there is one, and what is she looking for? Is the new post-technological era transforming the depth and the very essence of travelling? This book offers a number of visionary insights, as well as operational takeaways.

The Politics of Security in Modern Russia

Ashgate Publishing, Ltd. The Putin era saw a striking 'securitization' of politics, something that he has bequeathed to his chosen successor, Dmitry Medvedev. The omens from the early days of the Medvedev presidency have been mixed, marked both by less confrontational rhetoric towards the West and by war with Georgia and continued re-armament. Has the Medvedev generation learned the lessons not just from the Soviet era but also from the Yeltsin and Putin presidencies, or will security remain the foundation of Russian foreign and domestic policy? Fully up-to-date to reflect the evolving

Medvedev presidency, the 2008 Georgian war and the impact of the economic downturn, this volume is a much needed objective and balanced examination of the ways in which security has played and continues to play a central role in contemporary Russian politics. The combination of original scholarship with extensive empirical research makes this volume an invaluable resource for all students and researchers of Russian politics and security affairs.

Awakening Youth Discipleship

Christian Resistance in a Consumer Culture

Wipf and Stock Publishers Youth ministry has increasingly lost touch with its origins in the way of Jesus and the social practices intrinsic to Christian discipleship, and has instead substituted layers of Jesus talk, middle class values, fun and games, and doses of warm fellow-feeling. Awakening Youth Discipleship articulates the history of this domestication of youth and ministry. Mahan, Warren, and White tell a story of the ways in which our society has colluded to shape a domesticated adolescence. The authors believe a Christian response to this challenge must be multilevel, addressing the problem at three levels--society, church, and individual. The authors propose reclaiming practices of discernment that both engage congregations in social awareness and involve individuals in discerning fuller vocational opportunities than those allowed by popular cultural norms.

Medical Practice in Modern England

The Impact of Specialization and State Medicine

Transaction Publishers Before World War II, the great majority of practicing doctors in England and Wales were general practitioners. They performed their own surgery, and were accustomed to treating a wide variety of illnesses and symptoms. Specialists were few in number, tended to practice in large towns, and were often associated with major hospitals. But rapidly changing medical institutions and services in the twentieth century have compelled specialization even among more modest doctors and hospitals. While medical specialization was not new-for centuries physicians were differentiated from surgeons-twentieth-century science and technology emphasized and accelerated this difference rapidly. Medical care began to shift from services rendered by the general practitioner to the employment of those doctors with a special interest-for example, pathology, neurology, or cardiology. Author Rosemary Stevens, an expert in public health, traces, especially within the last two centuries, the patterns of English medical practice, institutions, staffing, and training, and their influence on specialization, the British National Health Service Act, and post-World War II developments. Stevens discusses the ever-relevant issues of income determination, medical education, and the future of the general practitioner in an age of specialization. Along with its companion volume, Medical Practice in Modern England is a book that will be of lasting value to scholars of medicine, medical care organization, economics, and modern social history. It is of special importance at a time of crisis in the health care systems of many European Societies. "A fine book. Carefully constructed, factual, elaborately researched, gracefully written."-George A. Silver, M.D., professor emeritus of epidemiology and public health, Yale University. Rosemary Stevens is professor emerita of history and sociology of science at the University of Pennsylvania. Educated at Oxford, Yale, and Manchester, she has also taught at Yale University and Tulane University. She is the author of American Medicine and the Public Interest and In Sickness and in Wealth: American Hospitals in the Twentieth Century.

Vatican II on Mary: The Case for the definition of the Spiritual Motherhood of Mary

AuthorHouse The purpose of this study is to show that the formal definition of the spiritual Motherhood of Mary would constitute a doctrinal development from Vatican II's teaching on Mary. It is my strong view that Mary's spiritual motherhood should be explicitly acknowledged, accepted and stamped with the extra-ordinary infallibility of the Church magisterium so that it would become a dogma of the Church, as the *sensus fidelium*. Such formal definition would give the doctrine the seal of juridical authenticity and prevent it from denigration and rejection in future. This study argues that the Catholic Church needs to advance forwards from the Marian teaching of Vatican II by making concerted efforts to maintain the Marian trajectory in the Church. Also portrayed are the efforts of the papal magisterium and some noted Catholic theologians that have gone back to the sources of the early Fathers of the Church in order to teach that Mary's spiritual Motherhood has solid foundation on Scripture and the Church's tradition. The post-conciliar teachings of the above-stated papal magisterium and contemporary theologians have the aim to nurture and sustain the faith and understanding of the people of God about Mary's spiritual Motherhood. The study also examines evidence to show that there is much in the Catholic Marian theology that could improve understanding among Christians of different denominations. In particular, it portrays the fact that Mariology always points to Christ, being indissolubly linked with Christology, and also has intrinsic unity with ecclesiology.

Modern Piracy

Legal Challenges and Responses

Edward Elgar Publishing A number of books dealing with piracy have been published in recent years. This book stands out by the breadth of its coverage, which, unusually and much to be welcomed, includes detailed consideration of both public and private law. The book is also notable for the quality and range of expertise of its contributors, who are not only leading experts in the field but a mixture of academic and practising lawyers. Robin Churchill, The University of Dundee, UK Piracy once again is posing serious threats to international trade, navigation and, of course, to the safety of seafarers. This collection of outstanding essays by outstanding scholars and practitioners examines the background to the re-emergence of piracy in South Asia, East and West Africa and explores the complex legal and practical challenges which crafting effective responses has presented. It is, quite simply, essential reading for anyone who is seriously interested in understanding and responding to one of the most pressing problems of our time. Malcolm Evans, University of Bristol, UK Modern Piracy is the first book to survey the law of maritime piracy from both public law and commercial law perspectives, as well as providing a contextual overview of piracy in major hotspots. Topics covered include issues of international law, law-enforcement cooperation, private armed security, ransoms, insurance and carriage of goods by sea. It provides a comprehensive introduction to the range of legal issues presented by the modern piracy menace and will be of interest to scholars and practitioners

alike. Benefiting from a wide range of international expertise, this book will be of interest to public international law academics, government legal counsel, maritime commercial law practitioners, international relations academics as well as anyone interested in transnational organised crime.
