## **THE GREAT AMERICAN JOBS SCAM**

---

### **CORPORATE TAX DODGING AND THE MYTH OF JOB CREATION**

---

*Berrett-Koehler Publishers For the past 20 years, corporations have been receiving huge tax breaks and subsidies in the name of "jobs, jobs, jobs." But, as Greg LeRoy demonstrates in this important new book, it's become a costly scam. Playing states and communities off against each other in a bidding war for jobs, corporations reduce their taxes to next-to-nothing and win subsidy packages that routinely exceed \$100,000 per job. But the subsidies come with few strings attached. So companies feel free to provide fewer jobs, or none at all, or even outsource and lay people off. They are also free to pay poverty wages without health care or other benefits. All too often, communities lose twice. They lose jobs--or gain jobs so low-paying they do nothing to help the community--and lose revenue due to the huge corporate tax breaks. That means fewer resources for maintaining schools, public services, and infrastructure. In the end, the local governments that were hoping for economic revitalization are actually worse off. They're forced to raise taxes on struggling small businesses and working families, or reduce services, or both. Greg LeRoy uses up-to-the-minute examples, naming names--including Wal-Mart, Raytheon, Fidelity, Bank of America, Dell, and Boeing--to reveal how the process works.*

He shows how carefully corporations orchestrate the bidding wars between states and communities. He exposes shadowy "site location consultants" who play both sides against the middle, and he dissects government and corporate mumbo-jumbo with plain talk. The book concludes by offering common-sense reforms that will give taxpayers powerful new tools to deter future abuses and redirect taxpayer investments in ways that will really pay off.

### **BATHING IN THE ROMAN WORLD**

Cambridge University Press In *Bathing in the Roman World*, Fikret Yegul examines the social and cultural aspects of one of the key Roman institutions. Guiding the reader through the customs, rituals, and activities associated with public bathing, Yegul traces the origins and development of baths and bathing customs and analyzes the sophisticated technology and architecture of bath complexes, which were among the most imposing of all Roman building types. He also examines the reception of bathing throughout the classical world and the transformation of bathing culture across three continents in Byzantine and Christian societies. The volume concludes with an epilogue on bathing and cleanliness in post-classical Europe, revealing the changes and continuities in culture that have made public bathing a viable phenomenon even in the modern era. Richly illustrated and written in an accessible manner, this book is geared to undergraduates for use in courses on Roman architecture, archaeology, civilization, and social and cultural history.
