She has her finger on the pulse of how and what America likes to eat." -- Tom Colicchio, author of *Craft of Cooking "A Good Appetite,"* Melissa Clark's weekly feature in the *New York Times Dining Section*, is about dishes that are easy to cook and that speak to everyone, either stirring a memory or creating one. Now, Clark takes the same freewheeling yet well-informed approach that has won her countless fans and applies it to one hundred and fifty delicious, simply sophisticated recipes. Clark prefaces each recipe with the story of its creation—the missteps as well as the strokes of genius—to inspire improvisation in her readers. So when discussing her recipe for Crisp Chicken Schnitzel, she offers plenty of tried-and-true tips learned from an Austrian chef; and in *My Mother's Lemon Pot Roast*, she gives the same high-quality advice, but culled from her own family's kitchen. Memorable chapters reflect the way so many of us like to eat: *Things with Cheese* (think Baked Camembert with Walnut Crumble and Ginger Marmalade), *The Farmers' Market and Me* (Roasted Spiced Cauliflower and Almonds), *It Tastes Like Chicken* (Garlic and Thyme-Roasted Chicken with Crispy Drippings Croutons), and many more delectable but not overly complicated dishes. In addition, Clark writes with Laurie Colwin-esque warmth and humor about the relationship that we have with our favorite foods, about the satisfaction of cooking a meal where everyone wants seconds, and about the pleasures of eating. From stories of trips to France with her parents, growing up (where she and her sister were required to sit on unwieldy tuna Nicoise sandwiches to make them more manageable), to bribing a fellow customer for the last piece of dessert at the farmers' market, Melissa's stories will delight any reader who starts thinking about what's for dinner as soon as breakfast is cleared away. This is a cookbook to read, to savor, and most important, to cook delicious, rewarding meals from. **Index to Jewish Periodicals** An author and subject index to selected and American Anglo-Jewish journals of general and scholarly interests. **Writers Directory M-Z** This comprehensive resource features up-to-date bibliographical, biographical and contact information for approximately 20,000 living authors worldwide who have at least one English publication. Distinguished scholar and library systems innovator Frederick Kilgour tells a five-thousand-year story in this exciting work, a tale beginning with the invention of writing and concluding with the emerging electronic book. Calling on a lifetime of interest in the growth of information technology, Kilgour brings a fresh approach to the history of the book, emphasizing in rich, authoritative detail the successive technological advances that allowed the book to keep pace with ever-increasing needs for information. Borrowing a concept from evolutionary theory--the notion of punctuated equilibria--to structure his account, Kilgour investigates the book's three discrete historical forms--the clay tablet, papyrus roll, and codex--before turning to a fourth, still evolving form, the cyber book, a version promising swift electronic

delivery of information in text, sound, and motion to anyone at any time. The clay tablet, initially employed as a content descriptor for sacks of grain, proved inadequate to the growing need for commercial and administrative records. Its successor the papyrus roll was itself succeeded by the codex, a format whose superior utility and information capacity led to sweeping changes in the management of accumulated knowledge, the pursuit of learning, and the promulgation of religion. Kilgour throughout considers closely both technological change and the role this change played in cultural transformation. His fascinating account of the modern book, from Gutenberg's invention of cast-type printing five hundred years ago to the arrival of books displayed on a computer screen, spotlights the inventors, engineers, and entrepreneurs who in creating the machinery of production and dissemination enabled the book to maintain its unique cultural power over time. Deft, provocative, and accessibly written, *The Evolution of the Book* will captivate book lovers as well as those interested in bibliographic history, the history of writing, and the history of technology.

The Red Countess Select Autobiographical and Fictional Writing of Hermynia Zur Mühlen (1883-1951) Open Book Publishers Praise for the first edition of this book: This translation is something of an event. For the first time, it makes Zur Mühlen's text available to English-speaking readers in a reliable version. —David Midgley, University of Cambridge [This book] represents exceptional value, both as an enjoyable read and as an introduction to an attractive author who amply deserves rediscovery. —Ritchie Robertson, *Journal of European Studies*, 42(1): 106-07. Born into a distinguished aristocratic family of the old Habsburg Empire, Hermynia Zur

Mühlen spent much of her childhood and early youth travelling in Europe and North Africa with her diplomat father. Never comfortable with the traditional roles women were expected to play, she broke as a young adult both with her family and, after five years on his estate in the old Czarist Russia, with her German Junker husband, and set out as an independent, free-thinking individual, earning a precarious living as a writer. Zur Mühlen translated over 70 books from English, French and Russian into German, notably the novels of Upton Sinclair, which she turned into best-sellers in Germany; produced a series of detective novels under a pseudonym; wrote seven engaging and thought-provoking novels of her own, six of which were translated into English; contributed countless insightful short stories and articles to newspapers and magazines; and, having become a committed socialist, achieved international renown in the 1920s with her *Fairy Tales for Workers' Children*, which were widely translated including into Chinese and Japanese. Because of her fervent and outspoken opposition to National Socialism, she and her life-long Jewish partner, Stefan Klein, had to flee first Germany, where they had settled, and then, in 1938, her native Austria. They found refuge in England, where Zur Mühlen died, forgotten and virtually penniless, in 1951.

A History of Inventions, Discoveries, and Origins The End and the Beginning The Book of My Life Open Book Publishers First published in Germany in 1929, *The End and the Beginning* is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Muhlen spent much of her childhood travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually penniless, in 1951. This revised and corrected translation of Zur Muhlen's memoir - with extensive notes and an essay on the author by Lionel Gossman - will appeal especially to readers interested in women's history, the Central European aristocratic world that came to an end with the First World War, and the culture and politics of the late nineteenth and early twentieth centuries.
